0599 or email: [OCR.KansasCity@ed.gov](mailto:OCR.KansasCity@ed.gov).

## **STATEMENT OF PHILOSOPHY**

The Corsica - Stickney Board of Education has adopted a statement of philosophy and purpose as recommended by the faculty and administration of the Corsica - Stickney Public School for the benefit and improvement of the children of the Corsica - Stickney School District.

The student's welfare is our chief concern in developing the intellectual, social, physical, and vocational potential of each student. All students are basically good and have a desire to learn and, therefore, we should provide them with experiences to learn on a continual program. Each student should learn desirable mental attitudes and truths concerning life, rather than memorizing facts. Sympathetic, cooperative attitudes among the student, the teacher, the parent(s), and the community are necessary in the development of the student.

The professional staff individualizes the instructional components in implementing the curriculum, teaching and assisting as much as possible in order to realize the individual potential of every student. The teacher is the most important factor in the educational program as a director of learning. It is the school's responsibility to develop skills and attitudes that will lead to the worthy use of leisure time.

Adequate facilities enhance learning.

## **MISSION / VISION / BELIEF STATEMENT**

### **CORSICA-STICKNEY DISTRICT ASSURANCE STATEMENTS**

#### **MISSION STATEMENT:**

The faculty, staff, and administration will provide a safe, caring, and productive environment for all students so they will obtain the necessary skills and knowledge to be productive citizens of our modern technological society.

#### **VISION STATEMENT:**

Students in the Corsica - Stickney School District will actively participate in their education and leave our school with the skills, knowledge, discipline, and character to succeed in the next phase of their lives.

#### **BELIEF STATEMENT:**

The students welfare is our chief concern in developing the intellectual, social, physical, and vocational potential of each student.

All children are basically good and have a desire to learn and therefore, we should provide them with experiences to learn as a continual program.

Each child should learn desirable mental attitudes and truths concerning life, rather than memorizing facts only.

Sympathetic, cooperative attitudes among the child, teachers, parent and the community are necessary in the development of each student.

The professional staff individualizes the instructional components in implementing the curriculum, teaching and assisting as much as possible in order to realize the individual potential of every student.

The teacher is the most important factor in the educational program as a director of learning.

It is the schools responsibility to develop skills and attitudes that will lead to the worthy use of leisure time.

Adequate facilities enhance learning.
