Welcome to the 25-26 School Year!

Parents/Students we would like to welcome everyone back for the 1st day of school planned for Tuesday, August 19, 2025.

When Corsica-Stickney School District was organized it was one of the goals to update our facilities. This summer the building known as the blue building in Stickney was painted to complement the new structure and make the facility look more like one building. Abe Painting did an excellent job accomplishing this goal. In Corsica the section of the High School/Middle School building built in 2003 received a new roof and some of the parking lot concrete was also repaired. All the facility projects should serve the Corsica-Stickney community for many years into the future.

Something new in the South Dakota Spring Accountability Testing this year and going forward will be that all Junior students must take the ACT test as the accountability piece for the State of South Dakota. This will replace the testing piece in prior years for the high school. The elementary and junior high testing will remain the same as in previous years.

Corsica-Stickney School provides many on site course offerings for its size. Dual credit course opportunities are also available for students that qualify. This allows students to begin their post-secondary careers at a reduced tuition price for qualifying classes. Corsica-Stickney graduates continue to garner many scholarships towards their post-secondary education. We believe this is in part to excellent educational opportunities offered at Corsica-Stickney School and our excellent staff.

Corsica-Stickney School continues to host an educational program (located in the Elementary Building in Corsica) operated by the Core Educational Cooperative that serves special needs students ages 18-21 in continuing their education. The Core Education Cooperative is composed of 13 area schools.

The staff for the Corsica-Stickney School District aspire for an educational environment that is focused on the student's welfare for developing the intellectual, social, physical, and vocational potential of each student. Corsica-Stickney School attempts to provide students with many educational experiences.

The societal and educational pressures the public educational system addresses continues to be more challenging and more complex today. Yes the system has changed over years, but the public education system in Corsica-Stickney delivers educational curriculum and opportunity that is excellent for all students in our rural area.

Corsica-Stickney School District has continuously strived for a strong academic and vocational curriculum along with a planned modern infrastructure to assist students prepare for their future. We appreciate your time and dedication given to our community public school.

Thank you Corsica-Stickney Community!

Scott Muckey, Supt
