CAMP OVERVIEW

The camp/clinic will be used to challenge players in the fundamental, skill development portion of basketball and how those skills apply to success in real basketball games. Basketball is a skilled sport (dribbling, shooting, scoring, decision making, etc.) and if one is not skilled how can one expect to have success at the skilled portion of the game during live action? The camp/clinic will be broken down into individual drills players can do on their own to gain confidence in that skill. Competitive drills players can use to start playing with purpose, instead of just playing to play. Everybody wants to be a basketball player or at least talk about being one; Very few are willing to put in the time. Even fewer put in time with a purpose. Our goal is to create passion with a purpose.
