

THE COMET

1971 Homecoming Has Many Highlights

KING GEORGE AND QUEEN PEGGY REIGN OVER CHS HOMECOMING

Pictured Above Queen Peggy Brink and King George Romkema.

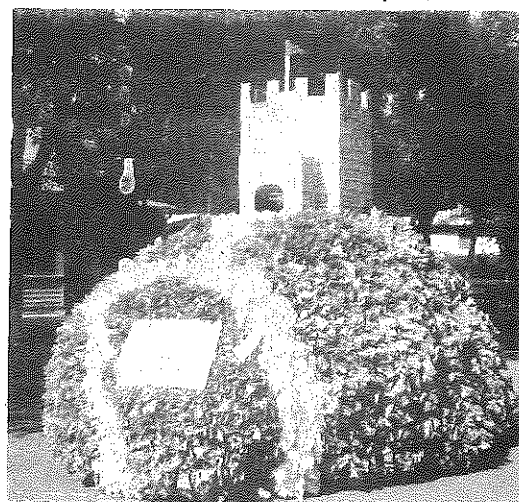

The audience sat in complete silence as they anxiously awaited the crowning of the 1971 homecoming royalty by last years king, Gary Olawsky. Calmly Russell Metzger, Master of Ceremonies, opened the envelope and announced that Peggy Brink had been selected queen from a group of three nervous girls. The other two attendants were Kay Klein and Nancy Noteboom. After the queen had been chosen, King Gary gave up his crown as it was announced that George Romkema was selected as his successor. George was picked from a field of three

candidates, the other two were Keith Sprecher and Rod Schrank. After a short thank you from the new king and queen, they took their throne while the swing choir sang "A Time For Us."

Preceding the crowning a program was presented by some of the teachers and the swing choir.

After coronation a snake dance was led by the cheerleaders. Many members of the pep club took part in this wild chase up and down main street and through business places yelling for the Comet team.

(Continued on Page 3)

SENIORS TAKE PARADE HONORS

The Comet Establishment, presented by the senior class was given first place in the Homecoming Parade Friday afternoon. This float resembled a mountain with a pathway to the castle on top representing the establishment. The mountain was stuffed with green napkins and the castle was made of silver cardboard resembling brick. This was very unique because it needed no car to pull it. The float was made over a running gear and was pushed by some of the ambitious senior boys.

SOPHS. TAKE SECOND

The second place prize was given to the sophomore class float. This float (Continued on Page 6)

EDITORIALS

LET'S SUPPORT OUR PRINCIPAL'S COMMENTS SCHOOL

The atmosphere around C.H.S. this year seems somewhat different from that of other years. The attitudes of the students seem better and more of you are getting involved by participating in things. We still have a few problems, but then, what school doesn't.

Have you ever taken a close look at the football scores? If you have you would have seen that the guys are really doing great this year. They have what it takes to make a great football team. You say to yourself, "Well that's great," but it means more than that. It means the whole town is getting behind them and supporting their team. The students at C.H.S. are doing a pretty great job, too.

The spirit at C.H.S. is probably the best it has been for some time. Most of you seem eager to support your team at games. Thanks should be given to everyone who has supported their team, because it is appreciated very much. This is the "Year of the Comet," so let's get rolling. Give Corsica a name of a great team, great spirit, and an altogether great bunch of kids.

Enthusiasm means a lot to the guys out there playing and really helps to fire them up for games. The football team is fantastic and they deserve the best pep club we've ever had. So let's get out there and show them just what they mean to us. Show them that we think they're SIMPLY AMAZING! K.K.

Last summer my family and I had the opportunity to travel to California for a visit to Disneyland and other places in the western part of our country. This opportunity gave us a chance to see firsthand some of nature's great works, and also the wonderful creations of a man who had imagination and a dream.

Walt Disney's creation, Disneyland, can well be considered one of the great wonders of the modern world. It was made possible by the technology of our country, a technology that made the dreams and imagination of one man a reality. One could spend days and weeks seeing these creations and still be amazed at all of it. To say that it is fabulous is an understatement.

Every person has an imagination, and everyone has dreams, but not all of us have the courage or the will to put these dreams or this imagination into practice. Why? I often think many of us lack the pioneering spirit which made our country so great.

All students in school should try to get the best education they can, to help them to fully develop their potential abilities so they too can live a useful and satisfying life. This should be the aim of everyone in this country, and this is what education should try to teach us.

Do not be in a hurry to tie what you cannot untie.

Liska presents an assembly

On Wednesday, September 22, the Liskas presented an assembly to the student body on their latest adventure. This year they took us on a lifelike voyage along the Pan American Highway through showing slides of their experiences. We were all glad to see the Liskas once again and enjoyed their program.

Once again on Tuesday, September 28, the students gathered to witness the colorful program presented to us by Victor Onstad. His talents were illustrated to us by creative chalk drawings. Both assembly programs were presented to us by The University of Minnesota Program Service.

MAGAZINE SALES
TOTAL \$1,062.89

A shocking surprise! Would you believe that the magazine sales this year bought in the total of \$1,062.89. We only fell about \$500 short of our goal which was set at \$1,500.

The magazine company ran off with \$683.78 so we'll never get to see that. But what the juniors will get to see amounts to \$252.96, and the seniors will get every bit of their \$126.15.

**freedom
at last!**

On October 6, 7, and 8, the students of Corsica High School will enjoy these three days out of school, while the teachers of CHS attend SDEA in Mitchell. So students enjoy yourselves during this vacation and teachers enjoy yourselves learning something at SDEA.

DECLAM GETS UNDERWAY

High school students, boys and girls! This year we have twenty seven of them in Declam. There are so many we may have to eliminate some of them in drama, poetry, and humorous before the 19th of October, for the 19th is the day of the local contest.

The district contest will be held in Platte on Tuesday, the 26th of October. Competing against Corsica are Stickney, Platte, New Holland, Geddes, Armour, Kimball, Mount Vernon, Plankinton, and White Lake. Declam contestants, get on the ball and practice!

CONGRATULATIONS
PEGGY AND GEORGE

DO BAD GUYS EVER
WEAR WHITE HATS?

by Mary Hoekman
Have you ever seen an original western movie? If you've seen three or four, you've seen every form they have ever been able to think up. The good guys always wear white hats or socks or something and the bad guys are black. Anything in between, means they start out bad and turn good or start out good and turn bad. Wouldn't it be fantastic if all the good guys turned bad and the outlaws won one once! If you don't think so, don't worry, because it will never happen. How could they ever make a movie with all the guys wearing the same color hat. Nobody would know who had already

The Comet Oct. 5, 1971 3
DUES DECIDED
UPON IN PEP CLUB

The Pep Club held a meeting to decide what they would use this year to distinguish the Comets from everyone else. We decided on maroon T-shirts. Freshmen were also required to buy a beanie from last year's Comet fad to wear to every game. Dues were set at 75¢, going up 5¢ a day after September 27 as a penalty for the late payers. Get your dues and money for T-shirts in soon!

(cont from front page)

As we recovered enough we return back to school to fire up the football players. The cheerleaders then lead yells and cheers in which everyone took part by either chasing a teacher or by running around the gym.

After this pep rally pepsi and hot dogs were served by Freddie's IGA.

turned bad and who's still good. Every decent western has at least one friendly girl and two guys after her. If it's a white hat against a black, the white always wins. An in-between might have a minute chance, depending on whether he started out good or bad. Now the most exciting type is the white against the white, boy the girl really gets the good end of that kind of a deal! They hold a duel and never fails, she gets hit by a stray bullet and dies while both cry over her. Why don't they make one and have both men shot and the girl run off with the pony express rider? That would be different!

SPORTS

"After last week's game we need to get back to fundamentals. This is what is known as a football."

COMETS WHIP TIGERS

The Comets took a journey to Bonesteel to shut them out 54 - 0. Keith Sprecher took the opening kick-off back for 70 yards. This seemed to fire everybody up, especially Chuck Holstein and Darryl Vanden Hoek who led half the touchdowns across. There were a number of scorers for the Comets Keith Sprecher made 3 touchdowns while Rod Schrank made 2 touchdowns. Dan Noteboom, Randy Jendersee, and Tom Eggers each scored one for the Comets. Defensively Corsica hit hard to hold the Tigers to no score and very few yards in rushing. George Romkema was the standout for the Comets as he had 17 tackles.

LITTLE COMETS WIN AGAIN

Corsica's B squad downed Geddes 26 to 8 Monday night Sept. 13. Corsica's offensive attack was led by Kent Fischer with two touchdowns while Bruce Zomer had one touchdown and Albert Heber completed a pass to Sam Reimnitz for a tellie. Dwight Beukelman was defensive standout for the Little Comets.

The Truth About Cheerleaders

As the football boys approached the lockers they noticed five girls in the gym going through all kinds of weird motions. What is really silly about it is they were doing the same thing as before, jumping up and down. You could see they were practicing for weeks, because when they would jump together some would be going up and some would be going down. But they're only girls and some only have been cheerleading for four years. What really hit my ticklish spot was when they tried to do cartwheels. There were nothing but arms and legs all over the place, and they ended up on the floor laughing. Soon they would get up and try again, but most of the time they would stay sitting on the floor and talk about what happened on their dates the night before. Soon Friday comes and the cheerleaders are out in front of the pep club getting the boys fired up for the game that night. When it is finally time for the cheerleaders to start they're surprisingly together and do a tremendous job.

FOOTBALL AS IT REALLY IS?

by Margie Van Zee

On a cold October night approximately forty young men appear on a well-lighted field. They are dressed in different colored outfits, one red and the other blue, and proudly march to opposite sides of the field. First they line up for exercises with one of the larger gentlemen calling out the count. It could be easier for them to diet than to do such strenuous exercises which leave them red in the face and puffing.

The kick-off. . . A truly exciting moment. One set of guys (red) kick the ball to the others (blue) down field. Immediately the reds run to the blues to congratulate the guy who caught the ball, but being the clumsy fellows they are they stumble all over each other and knock down the boy they sent out to congratulate in the first place.

Time after time they stand facing each other fooling around with the ball, passing it back and forth from the reds to the blues and the blues back to the reds. They fight over it viciously and then just like that they hand in over ungrudgingly.

I don't understand it, but it must be a lot of fun to risk permanent injury and mortal wounds on your body.

"B" SQUAD

STILL UNDEFEATED!

Corsica's B team enlarged the undefeated record with a victory over Ethan. Kent Fisher made the only touchdown for the Little Comets as Dale Weerheim made the conversion. The Little Comets told Ethan to only 2 points.

HOMECOMING

SPORTSMANSHIP-

A QUALITY

by Phyllis V.D.H.

Everybody was pleased at Homecoming Friday night as the Comets marked up their 17th straight win. There was a record attendance to watch the offensive team score as Rod Schrank scored twice on runs of 10 and 6 yards; Keith Sprecher scored on runs of 42 and 3 yards and also threw a touchdown pass to Dan Note-

boom for 17 yards as Rick Krull also scored twice on runs of 10 and 14 and Tom Eggers scored on a 50 yard kickoff return. The Comets had 301 yards rushing while the defensive team was credited with a safety. Leading the Comets was George Romkema having 20 tackles as Randy Jendersee followed with 15.

The term sportsmanship may be applied to many things. We like people who can win without boasting and lose without offering excuses. Sportsmanship demands honesty, fair play, cooperation, competitive spirit, respect for authority, rules, other players, and the acceptance of responsibility. The true sportsman plays hard to win, but accepts defeat gracefully.

A person does not have to be a skilled athlete to practice sportsmanship. A person shows good sportsmanship in many ways not connected with sports. Sportsmanship is an important part of good citizenship.

Perhaps one of the best definitions of sportsmanship is the code of sportsmanship of the Sportsmanship Brotherhood. Here are its rules:

1. Keep the rules.
2. Keep faith in your companions.
3. Keep your temper.
4. Keep yourself fit.
5. Keep a stout heart in defeat.
6. Keep hold of your pride in victory.
7. Keep a sound soul, clean mind, and a healthy body.
8. Play the game.

FOOTBALL PLAYERS DESERVE RECOGNITION!

by Rod Schrank

There are some places on the football team that are very much over-looked. I wrote this more as a dedication to the offensive linemen. These team mates, D. Vanden Hoek, C. Holstein and G. Romkema are very much under rated among the offensive players. They are involved in every play or pass play. These players should get the credit for the completion of the play. They have to stand their not able to use their hands, but only their knowledge and keen wits to make an opening for the half-back. The offensive linemen never receive any credit or a fan never says, "you did a good job for the team." The offensive guards have to block to let someone else get a touchdown. So next time you go to a game tell one of these players they played well. I have played half-back for the last three years and I know that without these guys we could never have gone undefeated.

BEAT ARMOUR!

Corsica romped past the Stickney Raiders September 17, by a score of 52 - 8. This victory added win number 15 to Corsica's winning streak.

Corsica dealt out 22 points in the first quarter and matched again in the second quarter giving them a 44-0 halftime lead.

The third quarter found the Comets tallying eight points, and in the final minutes of the contest, Stickney lit the scoreboard with a touchdown and a two point conversion.

K. Sprecher had three touchdowns for Corsica on runs of 46 and 7 yards along with a 52-yard pass reception. R. Schrank hit for two scores as he plunged over from the three-yard line for his first score and then went 24 yards for his second. J. Dykstra dived in from the two-yard line and T. Eggers hit R. Krull for a 29-yard scoring pass to round out Corsica's scoring. Leading the Comet's defense was G. Romkema with 13 tackles and R. Jendersee with 9.

VARIETY DAYS HELD AT CHS

THANK YOU

by J. Dockstra

To get everyone fired up for our Homecoming game, it was suggested something different be worn each day and to give prizes for the best outfits.

It was decided that Tuesday should be designated a grub day. Almost everyone cooperated, many kids came to school in bibbed overalls, funny hats, jackets, caps, unmatched shoes, anything to make themselves look grubby. Mrs. Pierret won the category.

Clash day was Wednesday. Plaids, stripes, polka dots, mixed colors and anything

you wanted to wear that clashed was the fashion of the day. Margie Van Zee walked off with the prize.

Thursday was maroon and white day, practically everyone was wearing our school colors. Since we couldn't decide on the winner, we gave Coach Wagner a bottle of spirit for the team.

We owe the student body and faculty a big "thank you" for their cooperation to make this a week of fun and getting everyone enthused about Homecoming.

Bernard Van Vuren would like to thank the following students for helping him load his chickens for shipment. They are as follows: R. Schrank, K. Sprecher, C. Muilenburg, C. Kredit, K. Droppers, D. Vanden Hoek, N. Vanden Hoek, and T. Eggecs. (cont. front page)

Comet Express, had a huge black train on top of a flatbed stuffed with white napkins around the sides.

A graveyard representing Avon's Letterman received third place in high school float competition. This float was made by the junior class using the group title "The Lettermen."

October 1, Homecoming Day was a beautiful fall day, perfect for a parade and the parade was indeed beautiful. Besides a very lovely float from each high school class each grade also made a float. In the grade competition the seventh grade won with the title "Bomb Avon." This float consisted of a plane flying over Avon ready to bomb it. The teachers also made a float for the parade in which Santa Claus drove a tractor pulling a football player. The Corsica Hill Billy Band provided music and a routine as they marched in their Big Mac's leading King George and Queen Peggy followed by the other four candidates. We were also fortunate to have Stickney's band march in our parade this year to make the parade a complete success and one of the best parades that have ever been in Corsica.

PLAY PRACTICE BEGINS

The play "Man Overboard" will be presented by the drama club on November 18 and 19. This play will be under directions of Mrs. Pierret. Character parts are as follows:

- Slim-----Chuck Holstein
- Captain-----Dan Everson
- Mr. Van Cleve---Doug Brink
- Hookey-----Dale Meerheim
- Butch-----Evan Bultje
- Katsy Prew--Ginger Schrank
- Flossie---Londa Gruenewald
- Dotty----Doris Niewenhuis
- Miss Hannah---Faye Menning
- Melanie-----Lonnie Van Zee
- Albert-----Sam Reimnetz
- Honey Boy---George Romkema
- Arlena-----Janice Brink
- Louise----Lindi Gruenewald
- Bill, Tim---Keith Sprecher
- Miss Cruikshank-Lola Kennedy

Staging will be simple, but unique as a ship's deck. Play practice will not start until October 4, because of our busy Homecoming week.

The drama club hopes to have an intermission that also pertains to the sea. When asked of her expectations of the play's turnouts, Mrs. Pierret remarks, "Enthusiasm is high so the play should be successful." Good luck to that success from the student body!

CHEERLEADING CLINIC HELD

Saturday morning, September 18, at 6:30 we were on our way to Vermillion for the annual cheerleading clinic. After registration "Mr. Cheerleading", Gene, talked to some 500 cheerleaders from Iowa, Nebraska, and South Dakota. He taught us the importance of motion and rhythm. We were then entertained by many attending squads, each showed its favorite cheer. The best squad was chosen and given a trophy. The A team cheer-

leaders would like to thank Mr. Eitemiller for taking us to the clinic.

FRESH TAKE TESTS

On Monday, Oct. 4th, the Corsica High School freshmen students were given the Lorge-Thorndike Mental Ability test by Mr. Billars, guidance director.

This test is one of the group of tests required statewide of all incoming high school freshmen. Each test consists of two parts-- a verbal battery and non-verbal battery. The results of this test indicates the scholastic aptitude for each student, thus enabling the teachers to better set realistic standards for each student.

ITED TESTS TAKEN

The ITED Test (Iowa Test of Educational Development) was given Sept. 27th to the members of the freshmen and junior classes by Mr. Billars. ITED is a statewide test requiring approximately one day to administer, and it is required to be taken by all high school freshmen and juniors in the state.

This assessment survey consists of eight separate tests, each dealing with abilities important to success in school and life in general. These tests concentrate on broad intellectual skills and understandings and on the ability to use what has been learned. Little emphasis is placed on the knowledge of names, dates, and formulas. The results of these tests enable teachers to see what areas of the curriculum the students progress satisfactorily and in which areas they

Open letter to the 1971 COMET yearbook staff:

Most of us, as we go through life, are dealt some disappointments as well as some recognitions and honors. The recognition accorded me by the dedication of the 1971 yearbook was one of the nicest honors I have ever experienced.

I wish to thank everyone who had any part in the editing and publishing of the 1971 COMET and desire to express my sincere appreciation to them for this gracious recognition.

My contacts with the students of Corsica High have been happy and rewarding, and my years of working with the students have been most gratifying.

Again, thank you so much.

Sincerely,

Mr. Billars

Mr. Billars

are developing more slowly than they should. With this information, administrators and teachers can better advise students on their educational problems and on their future plans. Also, given this information students can generally make their own educational decisions more intelligently.

The separate tests have the following: Reading, stresses comprehension and vocabulary; Language Arts, stresses English usage and spelling; Mathematics,--one area involves practical, realistic situations calling for the application of useful mathematical concepts, and the second area requires an understanding of the number system and advanced mathematical ideas; Social Studies, stresses ability to read and interpret social studies material and the understanding of present day social institutions, factors that affect our economy, and world developments of historical importance; Science--stresses science background. It measures ability to read

science material and understanding of facts, principles, applications, and generalizations drawn from biological, physical, and earth science. Use of Sources -- measures the student's familiarity with, his/her ability to use, important library references and other sources of information.

All colleges in South Dakota, and many other colleges throughout the nation, require the incoming freshmen to forward results of the ITED tests before registration and acceptance.

I CARE!

by Bev Zwart

Is man that blind
that he cannot see
what he is doing to
each and everyone of us?
Can't he see what is
happening to this beautiful earth
God gave us?
Is he blind to all the pollution
on land and air and sea?
Doesn't he care anymore?
Doesn't he have faith?
Did he forget to love and be loved
as a person who is living and
not as a being only existing?
Has he forgotten that if there is a will
there is a way?
Doesn't he have that will?
A will to fight for the right to live,
to make the best better.
A will that will enable him
to accept defeat as well as victory.
Has he forgotten what hope is,
what happiness is, what life means?
If man doesn't lead the way,
who will?
It almost seems that the animals
of our world are in better harmony
than we, but they lack the ability
to talk to one another, to communicate.
We have that ability.
Why don't we see it?
Why are we afraid to express ourselves,
to be open, but be ourselves?
Has man forgotten how to make the best
of what he has now?
Can't he see we have people pollution,
also?
Can't he see his brothers dying from
starvation?
Why doesn't he lend a helping hand?
Doesn't he care about them either?
Man came from a very primitive being,
living and existing in a cave world.
Over the years he moved from cave
to sod huts to log houses to board
houses to apartments and brick houses to
prefabricated houses to richly furnished
homes

(sometimes called mansions) owned by
whites
to the middle class to white trash and
black trash living in ghettos.
I must say man made progress.
(In which direction, I won't say)
He learned by experimenting and by
experience
through millions of years.
Yes, I know I said - millions of years.
Yes, I know that is a long time.
But how can we start to make this world
a better place if no one ever cares
enough to do anything!
Sure, young and old alike say they care,
but, do they really?
I know there are a few people who care,
but it seems as if they don't dare
to care past 25 or 30 years old.
They don't want to be in a minority.
All of us have to care until we die
or we are nothing.
Maybe we are destined to become a nothing
people and planet.
Maybe God wants us to destroy ourselves,
Maybe we will become cannibalistic and
kill one another just for the hell of it.
I don't think so, I know we won't if we
have people who care.
I care,
Because I love people.
I care what happens to them.
I have faith in mankind.
I love brotherhood and peace.
I love each man for what he is,
and not what he appears to be.
I have hope and faith that
there is a new world coming.
Faith, leadership,
brotherhood, love,
communication, hope,
understanding, concern.
If not man, who?
If not man, when?
I care!
Do you?

CHS SAFETY COUNCIL WANTS YOU TO THINK OF WHAT ONE SECOND CAN DO!

If you are going to be one of the fatal statistics in the massacre on our highways, you should know that it will be all over in about seven-tenths of a second. This is the way it will happen if your car, traveling only 55 miles an hour, smashes headlong into a tree.

One-Tenth of a Second

The front bumper and chrome "frosting" of the grill work collapse. Slivers of steel penetrate the tree to a depth of one and one-half inches or more.

Two-Tenths of a Second

The hood crumples as it rises, smashing into the windshield. Spinning rear wheels leave the ground. The fenders come into contact with the tree, forcing rear parts out over front doors. Heavy structural members of the car begin to act as a brake on the terrific forward momentum of the two-and-one-half ton car. But your body continues to move forward at the vehicle's original speed (20 times the normal force of gravity, your body weight: 3,200 pounds). Your legs ramrod straight, snap at knee joints.

Three-Tenths of a Second

Your body is now off the seat, torso upright, broken knees pressing against the dash board. The plastic and steel frame of the steering wheel begins to bend under a terrible death grip. Your head is now near the sun visor, your chest above the steering column.

Four-Tenths of a Second

The car's front 24 inches have been demolished, but the rear end is still traveling at an estimated speed of 35 miles per hour. Your body is still traveling 55 miles per hour. The half-ton motor block crunches into the tree. The rear of the car, like a bucking horse, rises high enough to scrape off lower branches.

Five-Tenths of a Second

Your fear-frozen hands bend the steering column into an almost vertical position. Force of gravity impales you on the steering shaft. Jagged steel puncture lung and intercostal arteries. Blood spurts into your lungs.

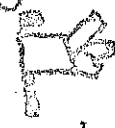

Six-Tenths of a Second

Your feet are ripped from your tightly-laced shoes, or your "loafers" go flying. The brake pedal shears off at the floor boards. The chassis bends in the middle, shearing body bolts. Your head smashes into the windshield. The rear of the car begins its downward fall, spinning wheels digging into the ground.

Seven-Tenths of a Second

The entire, writhing body of the car is forced out of shape. Hinges tear, doors spring open. In one last convulsion, the seat rams forward, pinning you against the cruel steel of the steering shaft. Blood leaps from your mouth, shock has frozen your heart. You are now dead!----Better Drive Carefully----Don't you agree?
