Chairman Board of Education
Benediction Pastor Oines
Recessional Theme from "The Young and the Restless"

CLASS MOTTO

As time goes on, we strive forward.

CLASS COLORS

Maroon and White

CLASS FLOWER

Rose

*Denotes Honor Students: Honor students are those that have maintained a "B" or better average during their four years of high school.

Next fall I plan to go to Vo-tech somewhere or possibly Springfield. This summer I plan to have a great amount of fun and make as many memories as possible---
PREPARE!!

The thing I will miss most about school is the kids that go there. Some are your friends and others you never know but we still all get along and have had many good times and parties. Also I know I'll miss football and the practices and the games and our hairless leader Kenny Wagner.

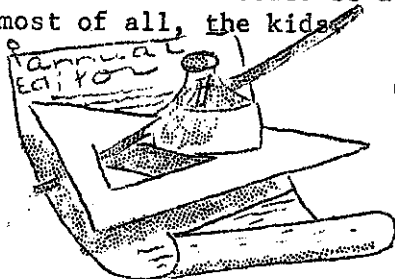

BOB BAMBERG

This summer I plan to do bookkeeping at the Hardware Store in the morning and have my afternoons free to do the things I enjoy most, and get ready for college. I will attend Northern State College and will be taking up secretarial science.

My major accomplishment was being able to place at the business contest, which is one goal I have always wanted to reach. Graduation also seems to be an accomplishment. It is depressing to think we won't be coming back to good old CHS, but we have all the memories which will never be forgotten. I think I will miss all the activities of high school that we could be a part of, but most of all, the kids.

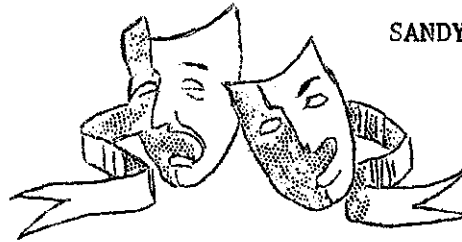

CHERYL BEUKELMAN

This summer I will be working at Spud's IGA plus any other odd jobs I can find. Ball games, swimming and learning how to sew are also included in my plans. I will be attending Northern State College in Aberdeen next year. My major will be either in music or secretarial science.

After spending thirteen years here at Corsica Public a person feels a certain attachment to the school. Graduating and saying goodbye to all my friends here at Corsica won't be easy but I am looking forward to the future and all the new experiences to come. Thanks to everyone who made my years here memorable ones and to all the underclassmen. Remember it's worth it in the end.

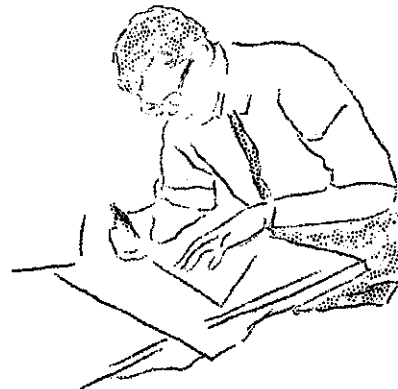

SANDY BEUKELMAN

My future plans are to do as little as possible.

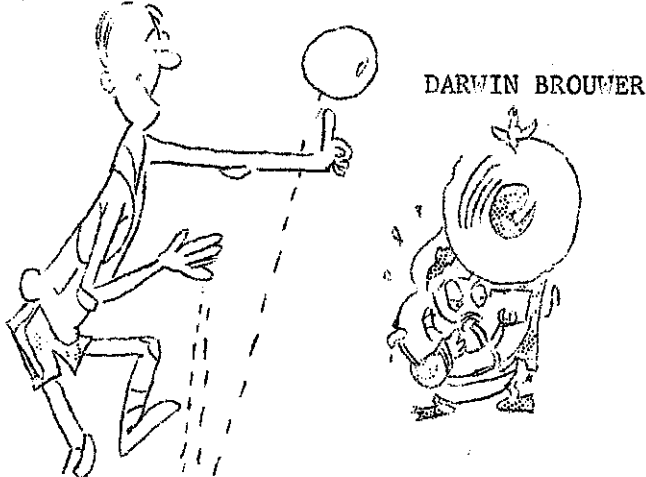

I finally realized I never had it so easy. I want to thank the school board for senior privileges and Ms. Nelson for making me write a research paper-I really learned a lot.

DONN BORDEVIK

I plan to work this summer trying to save money for college in the fall.

I would like to thank Miss Wagner for giving me an interest in math and helping me with it through the years. I also want to thank Mr. Kruse for giving some kind of study habit in order to pass his courses and Mr. Kulhavy for making 7th and 8th grade science fun.

My plans for the future are to join the circus.

I'm happy and I'm sad about graduating. I'm going to miss the underclassmen. I feel that my major contributions were in football and swing choir. I'd like to thank Mr. Anderson for being so cooperative and Mr. Adams for counseling me. My best year was the freshman year-high school was something new back then.

DAVE HOLSTEIN

I don't plan on going to school but will possibly get a job.

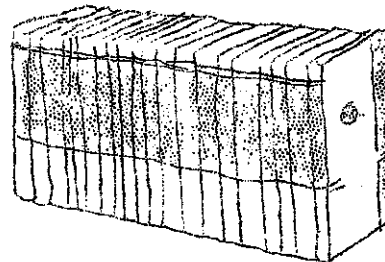

I am anxious to graduate from high school but I think I will miss the classmates and other friends at CHS. I think my senior year was my best year since I got to know the kids better. I went to a country school in grades 1-8 and then coming to high school was a big change so I had to get used to it. I, also, think in my senior year, our class got along better.

CINDY BULTJE

I am trying to find a job for this summer and next fall I am accepted at Calvary Bible College in Kansas City, Missouri. I plan on majoring in elementary education.

I am very glad I am graduating from Corsica High. The only thing I'll miss is some of the girls and guys I have come to respect. I'd like to thank Miss Wagner for helping me to get used to high school--especially in my freshman year. I'd also like to thank a few special people, whose names I will not mention, for helping me with some of my problems. My best year of high school was my junior year because during that year I got along with most of the people and the way the school was run seemed better than this year. The only thing I liked about this year was the way our class seemed closer together and did more things together.

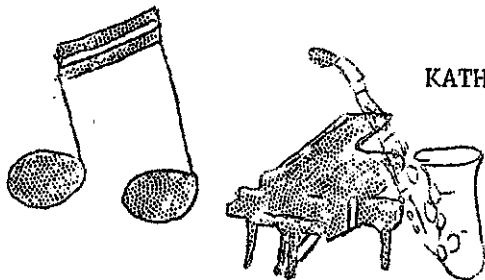

VERA HOEKMAN

Scholarship
Calvary
Bible
College

This summer I plan on working at Ewald's, playing softball, and having as much fun as I can with the Corsica kids. Right now I plan to attend Augustana to major in music and maybe minor in business next fall.

I am anxious to graduate but when it hits me that high school will be all over-I will probably feel totally different. I'll really miss basketball and the plays. Those things, along with music, are the things that made school exciting and worth it all. I'll also miss Homecoming and all the class parties we've had. The major accomplishments were probably All-State Band and getting the paper out on time.

KATHY KUYPER

This summer I will be going to work at Blue Bell Lodge in the Custer State Park. I will be working as a waitress at the lodge. Next fall I'll be attending NCB-National College of Business in Rapid City. I plan to go into a 2 year Accounting Program.

Graduation always seems like a long way off when you begin your senior year, but the time gets here before you have a chance to realize that you'll no longer have the security of coming back to high school, but it's also a glad time to know that you'll be out on your own and start all over somewhere else. I'm sure I'll miss the wild play practices and short-hand class!???

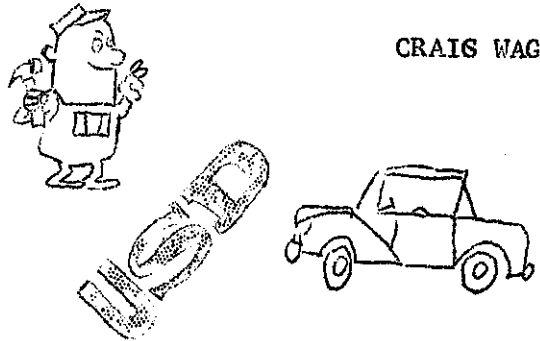

WANDA OAKLAND

My plans are to work for Joe Rexwinkel's construction this summer and in the fall I plan to go to USD-Springfield and take up auto body repair.

My best year was my freshman year because the class was more together. I'll miss the fact that I'm not going to Corsica High anymore and not being with my friends anymore as a class.

I'd like to thank Mr. Anderson because he is good with kids and easy to get along with. Also Mr. Adams because he tried to help me find my career.

CRAIS WAGNER

I plan on staying home for awhile and possibly get a job sometime later on.

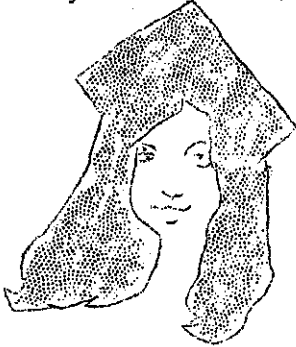

I feel graduating is a time of enjoyment knowing I've actually achieved something in my life but with a lot ahead of me yet but also sorrow knowing I'll really never be a part of all the activities at CHS. I think the most I'll miss about CHS is the kids, all the activities and especially the classmates. I think my best year was my senior year. I finally feel like I've grown up and I've really learned a lot, especially that I've got a lot of responsibilities.

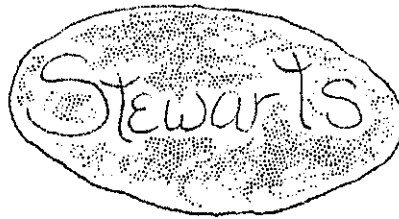

BRENDA PETERS

I plan to start school at Stewart's Hairstyling June 7 in Sioux City, Iowa.

I feel just super about graduating. I don't think I will really miss anything about CHS but the class of '77" and my closest friends. My best year at CHS was my senior year because it was my most successful year.

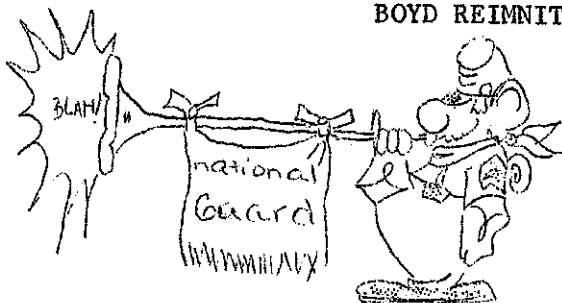

SHARON MULLENBURG

This summer I'm going to farm and then this fall I'm going to trap and hunt. Come winter this little boy is going to go to the National Guard basics.

Right now I don't think I'll miss anything. To me this school is a hole, I compare it to cleaning out a hog barn just something that has to be done. I got my diploma now I'm out, but I do see it as an end of a certain period of my life and the beginning of a new one. From now on we'll have to start pulling our own weight and putting our own meals in front of our faces. I would like to thank a few people who made my stay here halfways easy and still got something taught to me: Mr. Wagner, Mr. Graves, Mr. Anderson, Miss Wagner, and Ms. Nelson, and even Mr. Kruse, he's the teacher who probably taught me the most. I don't like the way he teaches but it is effective. One last thing, I would like to thank Mr. Hall for teaching me how to deal with people who don't like me and try to make my life miserable.

BOYD REIMNITZ

This summer's plans are filled with working during days, screwing around in the evenings, and spending a lot of time down at the river (especially weekends). If the summer turns out good and I like being out of school, I'll probably keep on working. Otherwise I'll go to school.

I'll miss mostly the good times and all the friends.

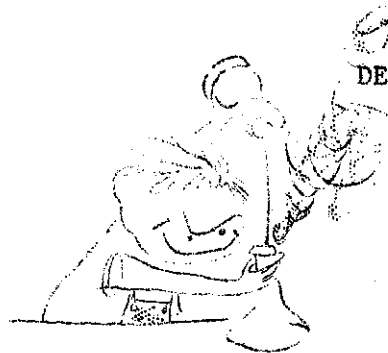

MIKE VANDEN HOEK

This summer I'm going to work at Menning Implement setting up machinery. This fall I plan to enroll at the South Dakota School of Mines and Technology.

In a way I'm looking forward to graduation in that I'm almost through with my education, but yet I'm somewhat saddened by the thought of no more fun times associated with high school. My best year I think was my freshman year. It held a wonderment of high school and yet was filled with a lot of good times.

DELWYN VREUGDENHIL

MARK NOTEBOOM did not fill out a questionnaire; however, he will be working in a gas station in the Black Hills this summer. His plans for next year are undecided. Mark was active in football, and basketball, achieving All-Conference in football.
