SENIORS TOUR Vocal Contest CAPITAL

At 5:30 AM Tuesday, February 6, the senior class, along with the government teacher, Mr. Selchert, boarded a bus and left for Pierre. After eating breakfast at Hutch's Cafe at Presho, they arrived in Pierre at 10:00 AM. First they toured the Crime Lab, where an official of the department gave an interesting talk on criminal investigation. After this the class had free time until dinner, which was served at 11:30 at the St. Charles Hotel. The class attended the House session which convened at 1:00 PM. After about an hour's observation everyone had free time until 4:00 PM. During this free time students toured the museum and many different state departments. After supper at Al's Oasis in Chamberlain at 6:00 PM, the bus returned to Corsica at 8:30 full of tired and happy seniors with the satisfactions of an educational day.

I PLEDGE IN PRAYER TO DRIVE SAFELY

Lord, in thankfulness to You for life and health, I offer my pledge to drive as safely, alertly, and courteously as I can this day. Help me to keep my mind sharp and my coordination sure. Let me think courteously of others--their safety as well as their chances of error on the road. You have given mankind the blessing of wheels; You have made us masters of miles. Let me be a good steward of this blessing, so that I, in my car today, will be a faithful and humble servant in Your service. Amen.

Editorial by Frances Beukelman

As we seniors approach the end of our high school education, it would be well for each of us to look back on, analyze, and appreciate our years here at Corsica High School.

After looking back on our past three and one-half years here, I am beginning to realize how much we have received and how many opportunities have been given to us.

When we seniors have really applied ourselves to, and have been interested in the material we were given to study, we have in turn received a good education.

Sometimes we have complained about the staffs employed here during our four years, but for each teacher who has not given us the instruction we should have received, we have also had the privilege of being taught by an exceptionally capable instructor who has given us an excellent background in his or her teaching career.

We have expressed dissatisfaction with facilities in our school here in Corsica. Often there has not been sufficient room or equipment which is a direct result of living in a small community with a proportionally small school. However, there have been advantages in this situation as well. In Corsica each student is an individual part of the school. He has the opportunity of receiving special instruction from his teachers on a subject especially difficult for him. All have the opportunity of participating in extra-curricular activities; many students are active in several. All this is made possible by the small student body which we have.

And so, in analyzing our past years and present year of education at CHS, I sincerely appreciate the hours of instruction and encouragement which we have received here.
