

Corsica High School

HIGHLIGHTS

MARCH 22

Reptiles Shown At Assembly

On Wednesday, March 20, Gordon Carey presented an assembly program entitled "Reptiles of North America." Most of the students found it quite interesting, but others found it "creepy" or "It really choked me up!" Some students found it quite amusing that even lizards hesitated to eat food from our cafeteria.

All and all the program did prove to be quite informative, and there was good student participation-- unwilling, but cooperative.

Track Begins!

The following is a schedule of the major track meets which the Corsica track team will be participating in:
April

- 3-Winner Invitational
- 6-USD Invitational
- 11-Pierre Relays
- 16-Redfield Relays
- 20-Corn Palace Relays
- 26-Tyndall Relays
- 27-Aberdeen Relays

- May
- 2-Bonesteel
- 4-Howard Wood Relays
- 6or8-Conference Meet
- 9or10-Regional Meet
- 12-18-State Meet

SCIENCE DEPARTMENT TO BE RENOVATED THIS SUMMER

Seniors Visit Armour Trial

March 21, 1968, the government class of Corsica High School attended the murder trial of Willie Stands. The class heard the final arguments from both the defense attorney and prosecuting attorney. They also listened while the juniors were instructed by Judge Bandy on how they should decide the case.

The class returned home after the jury was dismissed to seek a verdict. The 39 students were accompanied by Mr. Selchert.

4th 9-weeks Beginning

The students of Corsica High have completed tests for the third nine-weeks.

Everyone is now beginning the last nine-week period for this year; for the seniors it is the final nine-weeks. Everyone is expected to do his best and try to improve in his work.

The Corsica High School Science Department will have a new look when school opens its doors next fall. Plans have been made and the bid has been let to rejuvenate the science laboratory. The room occupied by the laboratory now and the social science room will be combined to do this. The present laboratory will be fitted out with six chemistry and physics tables to accommodate twenty four students. A portion of the wall between the two-rooms will be removed and fifteen two-student biology tables will be put in the present social science room for the use of biology and general science students.

The project has been approved by the State Department and fifty percent of the funds will be received from the government.

CONGRULATIONS!

to Mr. and Mrs. Doran on the birth of their son on March 17. It has been rumored that the baby was named VAN DER.

-Saint Patrick's Day

Saint Patrick's Day is celebrated on March 17 in honor of Ireland. Many legends have grown up about St. Patrick, one of which is that he used the shamrock to illustrate the idea of the Trinity.

His death on March 17, in about 461, has been observed in America since colonial days. The Friendly Sons of St. Patrick were organized in Philadelphia. In New York, Irishmen of the Roman Catholic and Presbyterian faiths organized another chapter of the society. Observance of the day has become nation-wide, since 1845, and is celebrated in homes, churches, schools, and places of entertainment. Merchants sell special wearing apparel, flowers, shamrocks and greeting cards. Some cities hold parades. Each year, arrangements for New York's St. Patrick's Day parade begins shortly after New Year's. The organization committee enlists the help of businessmen, churches, government officials, and employees throughout the city to make the parade "a great day for the Irish."

SSC Choir Visits Here

Thursday, March 14, Southern State's choir made an appearance at Corsica High School while on their two day tour.

The choir, led by Mr. Warren Erickson, presented a program which consisted of both sacred and secular numbers. A part of the performances was also shared by soloists, a quartet, a folk group, and "The Madrigal Singers."

The fifty-seven member choir presented an hour-long concert which was attended and enjoyed by the public as well as by the student body.

One girl to another, watching a departing jalopy: "I know Alvin's been faithful--his seat belts never need readjusting!!"

Students See Films on Drugs

By Elaine Van Zee

On Monday, March 18, two films, "The Losers" and "Pitfalls of Despair", were presented to grades 7-12 at Corsica High School.

Each film presented its story in a different way. "The Losers" consisted mainly of interviews with former drug addicts and men associated with drugs and addicts. "Pitfalls of Despair" consisted of the actual story of a young boy who fell into the pitfall of drugs and narcotics.

These films were presented with the hope of making an impact on today's teens, and to show them some of the perils of drug addiction and the danger of seeking "kicks" through the use of drugs.

Senior Interviews

WES STARKENBERG

On December 6, 1949, at the Parkston hospital a bouncing baby boy was born to Mr. and Mrs. John Starkenberg. Wes has now reached the height of six feet and he has blue eyes and brown hair. Some of Wes's favorites are:

Food--pizza

Drink--coke

Subject--senior science

Teacher--Mrs. Hughes

Sport--track

Song--"Love is Blue"

Actress--Audrey Hepburn

Sing group--

First Edition

When Wes isn't working at Krediets or in school, he can usually be found working on his "Chevy." His favorite saying is, "No lie!"

An improvement that could be made in CHS would be the addition of a student lounge," says Wes. His opinion of CHS is "the best high school I've ever attended." Wes's future plans include either attending the School of Mines or going to the army.

SHARON VANDEN HOEK

Mr. and Mrs. Earl Vanden Hoek became the proud parents of a baby girl on December 12, 1949, at the Platte hospital. They named her Sharon Faye. She has now reached height of 5'4" and brown eyes and Sharon likes to eat

Armour Wins Grade Tourney

On Wednesday, the 13th of March, the final game of the grade tournament was played in the Corsica Public School. The battle for third place was between Corsica Public and Hopper; Corsica won by the score of 32 to 18. The contest for first and second place was between Armour and Corsica.

SCIENCE FAIR

Next Friday, March 29, the science students of Corsica High School will present a science fair for the public in the school gymnasium.

Those students who are presently studying biology and physics will have completed projects on display.

(Cont. from col. 1) steak and drink 7-up or coffee.

Her favorite song is "You Mean All the World to Me," while her favorite actor is John Wayne. She likes any singing group as long as they are "Country and Western."

In her spare time Sharon enjoys writing letters and does a lot of daydreaming.

Sharon's opinion of CHS--stands in need of many improvements.

Looking back on the past four years of high school, Sharon's most exciting event has been either the

Grade News

1st and 2nd

We are busy decorating our room for spring with pictures of flowers, birds, and kites.

We have begun a new spelling chart using kites. We have ribbons of different colors to signify what grade we have attained. Elaine V. leads in the second grade and David P., Glenda V. and Mona Maunders tie in the first.

In language classes we have been writing poetry and stories. Next week we will begin our puppet shows.

In music class we are practicing songs to sing in our program.

We have finished our Basic Reader in the second grade, and are now working in the third grade material. We first graders will soon finish our basic reader; then we will try to get acquainted with some of the words we will be using next year.

Jean Bormann and Larry Plooster have been neither absent nor tardy this year.

We were happy to have Mrs. D. Vanden Hoek and Mrs. D. Manning visit our room, since we enjoy having visitors.

7th and 8th

We have started a new nine weeks. Last week we took tests.

In math the 7th grade is studying circumference and diameter; the 8th grade is studying formulas.

DRIVER'S ED.

(Senior interviews cont)
carnival of her sophomore
omore year or the time
when she received her
diamond.

Sharon dislikes
studying and her pet
peeve is people who
think they are so high
and mighty.

Her plans for
future are to get mar-
ried and probably work.

(Grade news cont.)

In science the 7th
grade is studying
the nature of water.

In English the 7th
grade is studying dia-
gramming sentences; the
8th grade is reviewing.

In geography the
7th grade is studying
Benelux Countries, and
in civics the 8th grade
is studying the local
government.

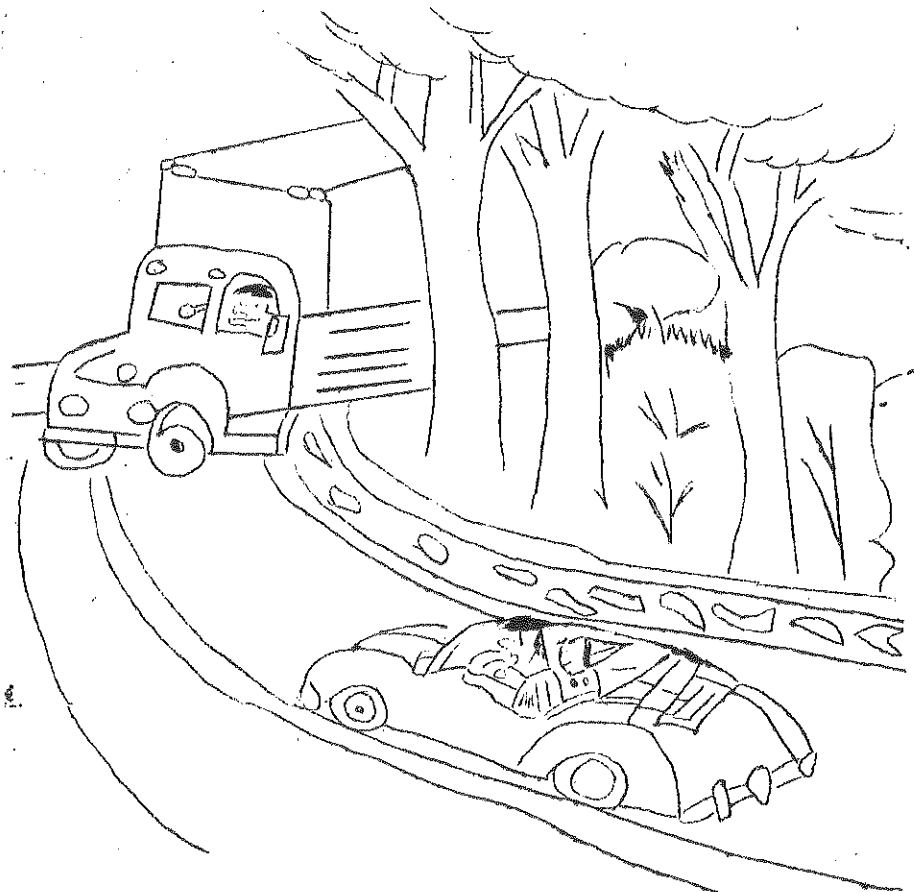

Lois and Ricky had
birthdays and Peggy's
is Friday.

People that were on
the sick list were Su-
san Wegehaupt, Carla
Wagner, Judy Teunissen,
Dawn Bordewyk, Jean Ho-
ekstra, Glen Herrig,
Kathy Vanden Hoek,
Lois Growen, and Margie
Van Zee.

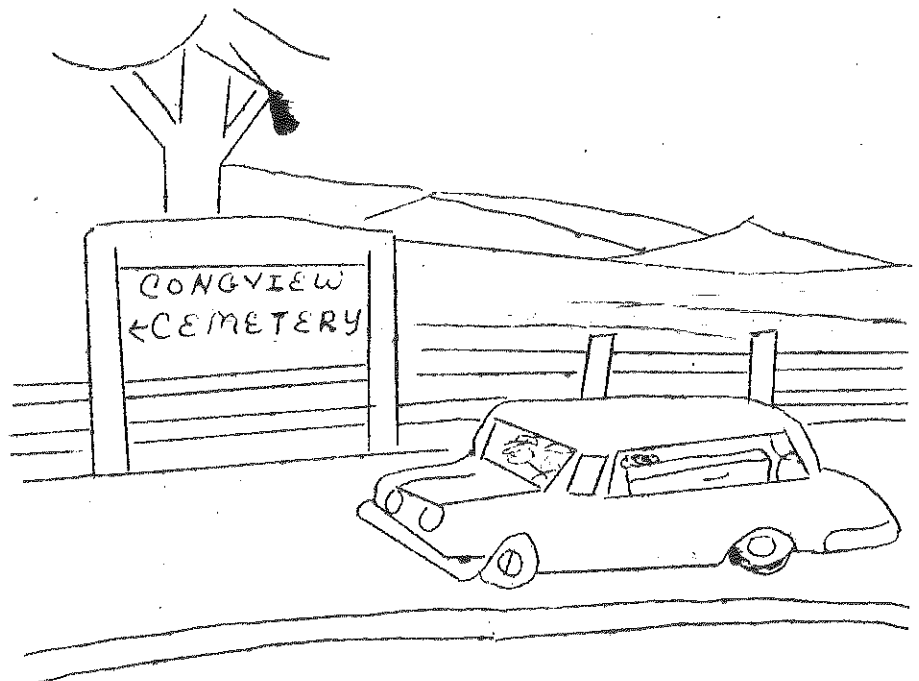

We won over Hopper
in our last tournament
game to earn third
place.

Did you hear about the
15-yard penalty for
putting the ball in
play during the com-
mercial?

Sign on the back of a
car with a woman driv-
er: "Danger! This car
stops at all sales."

"I'm d d tired; wish I could
str to out for walls."

ODDS 'N ENDS OF INFORMATION

Rehearsals for the senior class play, "The Egg and I", to be presented April 18-19, are under way. Mrs. Charles Burris is the director of the play.

Sales of the yearbook will begin next week, with Lowell Hamburg, business manager in charge. Yearbooks will cost \$4.00 again this year. More information will be given next Monday.

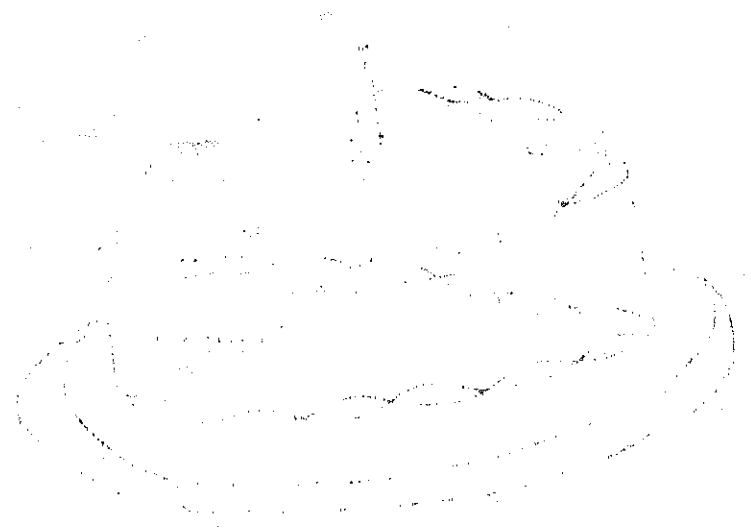

The junior class is working hard on plans for the prom, which has been set for Friday, May 10.
