THE IMPORTANCE OF EASTER LIES...

By Sandy Bamberg

"In Your Easter Bonnet" and "Here Comes Peter Cottontail" are two well-known songs which can be heard quite frequently throughout the Easter season. They make us think of frilly, colorful hats and beautiful springtime wearing apparel. They fill children's minds with visions of a fluffy white bunny hopping happily to their homes with his basket of tasty treats in the forms of candied eggs and chocolated bunnies.

People hear a lot about bonnets and bunnies, but what do they hear about "The Old Rugged Cross"? It seems that in this world today everything has become commercialized. The meaning of some of the most sacred events is being distorted because people are attaching commercial meaning to these happenings.

Now don't get me wrong, I have nothing against new fashions of the Easter bunny, but I feel that something more important should be stressed during the Easter season. Everyone should think about the true meaning of Easter.

If you think about it, you'll find that the importance of Easter lies with a man called Jesus who was sent into the world by His Father to perform a most immaculate task. He had to die upon the cross in order that all people might have a chance for salvation. Although it seems impossible the task was completed.

This is what Easter is all about. So go ahead,

(cont'd page 5)

WHAT IS EASTER???

By Vicki Dykstra

Easter is a wonderful time of the year. Many people everywhere are celebrating Easter by dyeing eggs, with Easter bunnies and chicks, and, of course, the Easter egg hunts.

To some Easter means getting a new Spring outfit to wear to church on Sunday morning. And, to others it means going to church to worship and praise God.

But, don't you think that we often forget the true meaning of Easter? Every year Easter seems to become more commercialized just like the other holidays. Jesus suffered and died for us, and arose again to save us from our many sins during this glorious season. We should not forget that the true meaning of Easter lies in Christ's giving us new hope, and his conquering death for each and everyone of us throughout the world.

I think that the following poem fully expresses Easter as it is celebrated today:

What is Easter?

Easter is joyful, lovely and alive!
Filled with the wonders of spring,
It is tulips, crocuses, buds on trees
And robins that cheerfully sing.
Easter is children hunting for eggs
The bunny was careful to hide.
It's baskets of candy, fuzzy chicks
And going for a Sunday ride.
Easter is women in flowered hats,
New dresses and spotless white gloves.
It's a family gathering and a fancy dinner--
A season that everyone loves!

MR. KULHAVY GRANTED AWARD

Mr. Kulhavy has been awarded a National Science Foundation Scholarship for a summer course in chemistry at the University of South Dakota at Vermillion.

The Chemistry Institute will start June 15 and continue till August 11. This eight week course is to aid teachers who want to upgrade their knowledge of chemistry.

Last year, Mr. Kulhavy was granted a National Science Foundation Scholarship in physics at the South Dakota School of Mines at Rapid City.

The scholarship is awarded each year to 30 teachers throughout the United States. The scholarships are based on applications sent in by the teachers wanting to apply for it.

MUSIC ASSEMBLY SLATED FOR MARCH 18

Peter Chei, an escapee from Communist China, will present a program featuring fine sets of Swiss Sleigh Bells.

These bells were brought to the United States more than a century ago and finally found their way into the attic of San Francisco Orpheum Theatre. From here, they were purchased by their present owner.

In addition to sleigh bells, the program includes a variety of novelty instruments. CHS students will enjoy the musical cow bells, the tuned bottles, and bells of Europe and the Orient.

Peter Chei will appear Wednesday, March 18, to an assembly, under the management of the Division of Supervised Study, State University, Fargo, S. D.

Nine-weeks Coming Soon

By Sandra Bamberg

The end is coming soon! Yes, fair students at CHS, the end of the third nine-weeks is fast approaching. This means that teachers will be administering those torturing tests again. Many of us will stay up well into the night and even morning to study. Why do we stay up and rack our brains? We do it because a good test grade will help to pull those dropping marks. Well, it's a little late now to bring up your grades. However, you still have a chance to do better the last nine-weeks, so get wise; studying will help your grades to rise.

STATE "B'S" UNDERWAY

Many CHS students anxiously await the arrival of State "B's" each year and this year is no exception. I believe there is more excitement this year because the Stickney Raiders have earned the right to enter the state competition.

Besides the Raiders, other teams have bombarded heavy competition and landed at the State "B's". Among these are Desmet, Clark, Hurley, Gettysburg, West Central, Cheyenne Eagle Butte, and Hitchcock.

And it always seems more kids want to attend than the High school is given tickets for, so this year those kids having tickets include the first twelve of the basketball team, the cheerleaders, and Doug Bordewyk, Ralph Starckenburg, and Paul Herrig.

Let's all go up there and have a good time and may the best team win.

SCIENCE CLUB PROGRESSES

Mr. Englehorn, in charge of the Science Club says, "We plan to get to the moon by 1972!"

In a more serious vein, the CHS Science Club is accomplishing things, and its members are learning a great deal about their individual projects.

The Science Club meets occasionally, when ever time permits. Recently, conflicting events have prevented the Science Club's meetings. However, members of the Club are allowed to work on their projects during school hours.

STUDENTS GIVEN PROJECTS

Debbie Markus is performing different experiments with blood. These show the different uses of blood in the body. She also watches blood through the microscope to determine the parts of blood.

Carla Wagner and Anna Mae Spaans are working with chickens. They put food coloring into fertilized eggs, then wait for them to hatch. When the eggs hatch, the chick's feathers are colored.

Renée Bye is making permanent slides for future use with microscopes.

Ralph Starckenberg is still working with his rats.

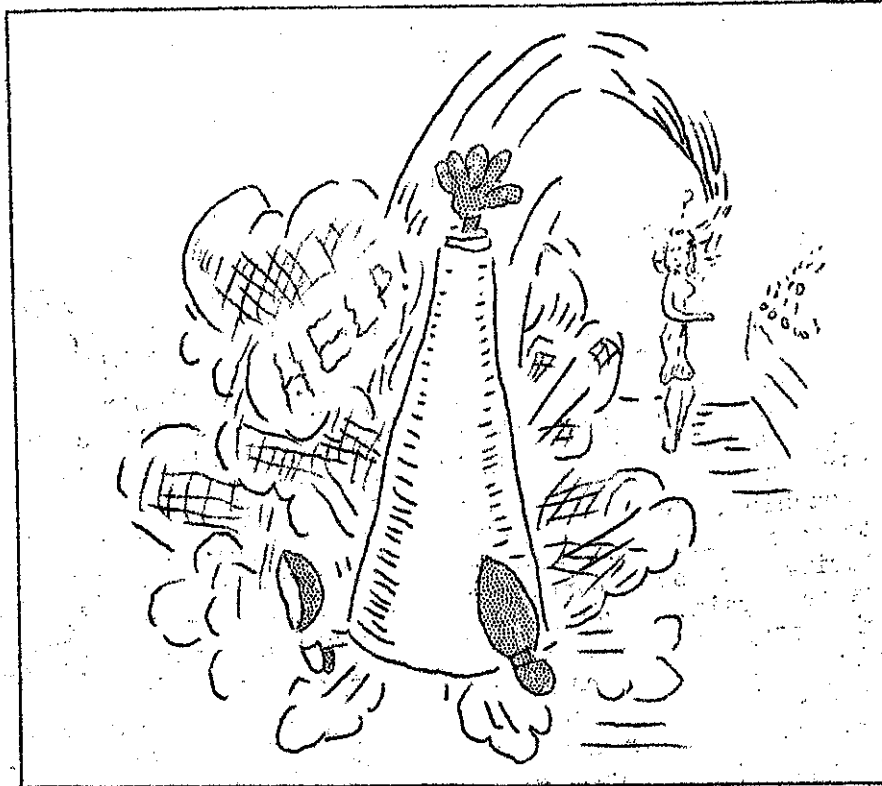

Nancy Noteboom and Darryl Jongsma are attempting to artificially fertilize, then hatch frog eggs.

The rest of the members of the Club are working with rockets. These are the members that will "go to the moon by 1972."

# STUDENTS OF CHS LETTER

## PANTHERS DEFEAT THE COMETS

By Alan Zwart

Third place honors in District 27 went to the Platte Panthers as they downed the Comets 66-46.

Platte was ahead almost the whole game and this wide margin victory may be pointed to the fact that the Comets were guilty of 17 turnovers while their opponents had but 7.

High scorers for the Comets were Joe Maunders and Elwood Vanden Berge with 11 each. The Comets shot 42.1 percent from the field.

Leading scorer for Platte was Paul DeHaan with 22 points. Ray Poelstra, Tom Holter, and Steve Vander Boom followed with 18, 11, and 10 points respectively.

The rebounding figures were 29-22 in the Comets (cont'd next col.)

(cont'd from col. 1) favor. Vander Boom led Platte's rebounding while it was a team effort for the Comets.

Corsica's team scoring for the year shows that we scored 1442 points or an average of 63 points per game. Our opponents scored 1352 points or an average of 59 points per game. We ended with an 11 win, 12 loss record.

The seniors of '70 predict that on a certain Friday night in February of 1971, the championship trophy of District 27 will belong to CHS.

(cont'd from col. 3) will be Alan Zwart, Brent Beukelman, Mark VanZee, from Corsica; Dennis Srstko, Dan Koster, Tom Briner, from Geddes; Ron Moor, Jerry Schoneboom, David Wernke, David Cohoy, Allen Cerny, Whitley Little Bear, Dwight Pepper, John Moor, from Bonsteel. They will be coached by Ken Wagner.

By Tom Gerlach

The Comets basketball season has come to a close. After hard work and a lot of determination, twelve boys have managed to letter. They are as follows: seniors, Mark Van Zee, Alan Zwart, and Brent Beukelman; juniors, Brent DeBoer, Joe Maunders, Gary Olawsky, Randy Schryvers and Roy Beukelman; sophomores, Elwood VandenBerge, Danny Noteboom, Keith Sprecher, and Randy Jendersee.

Congratulations, boys.

## ALL-STAR AND FACULTY GAME MAKES NEWS

The All-Star and faculty basketball game will be played March 24 at Armour.

The evening play will begin at 7:00 with the faculty game. Corsica, Bonesteel, Geddes, and Marty Mission will go against Delmont, Armour, and Dakota Christian. Among the players will be "Sleepy" Selchert, "Hefty" Henthorne, "Krusher" Kruse, "Wiggle" Wagner, and "Dipper" Droppers.

The second game will be Corsica, Geddes, and Bonesteel playing against Delmont, Armour, Dakota, and Marty Mission. The players will be Darrell De Lange, Wilbur Mass, Glenn VanZee, Jeris VanZee, from Dakota; Terry Sherman from Delmont; Jim Thompson, Joe Tischler, Walt Wilson, from Armour; and Larry Arcorn, Warran Giago, Tom Wright, from Marty Mission. They will be coached by Dennis DeKok. The opposing team (cont'd to col. 2)

## TO SWIZZLE WOULD BE TO....

- ...Try to get through a door when Chuck Holstein is standing in front of it.
  - ...Hit a maltese bippy in the face.
  - ...Call Darryl Jongsma 'Super Chicken' and watch him start to swizzle.
  - ...Teach Rod Schrank to grow sideburns.
  - ...Whistle sloppy.
  - ...Blow a test!
  - ...Start your research theme three days before the deadline.
  - ...Watch girls in mini-skirts go by.
- The actual meaning of swizzle is to drink to excess

(Cont'd from page 2)

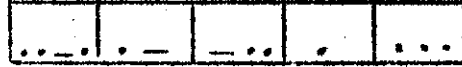

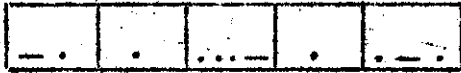

Its going to church with loved ones and friends  
 And hearing the wonderful story  
 Of the hope and beauty  
 this holy time brings--  
 The promise of God's endless glory! Kay Andrew

*Thanks to  
 Merlin DeBoar  
 for drawing the  
 Sports mast which  
 appeared in the  
 last issue.*

(Cont'd from page 2)

be happy, but be happy first because Jesus died to save you. Then, go out, get a new Easter outfit, and may the Easter bunny be good to you!

# MYSTERY MESSAGE

Can you find the special message hidden in the puzzle?  
 Fill in the answers by using the Morse Code. When  
 all answers are filled in it will reveal a ~~secret~~ message.

## YOU'LL BE SAFER WHEN YOU DRIVE DEFENSIVELY

...Two-wheeled safety requires better-than-average driving skills for the techniques and hazards of cycling.

Adapted from "Motorcycling and You"

- ...Keep your distance
- ...Think ahead
- ...Watch for pedestrians
- ...Pass with caution
- ...Stay in your lane
- ...Look out for others
